

Tyringe Hockey enter into a commercial agreement for PolarCap® System

Establishment of the PolarCap® System in Swedish hockey continues, as Tyringe Hockey enter into a new 2-year agreement with PolarCool AB (publ). The agreement demonstrates the PolarCap® Systems value, as a product that can be used throughout the entire sports market even though the order is limited in size.

Tyringe Hockey's Jörgen Persson comments;

- Tyringe Hockey is very proud that we, through our sponsors, will be able to continue to treat our players with PolarCap® System when they suffer a concussion. We have used PolarCap® for two seasons and are very satisfied so for us it is therefore natural to continue.

PolarCool's CEO Erik Andersson comments;

-Offering the PolarCap® System to all levels of sports is part of PolarCool's business model, even though our focus is initially to secure teams in the highest leagues. PolarCool works according to the slogan "We protect sport" and this applies regardless of whether it is Leeds United or Tyringe Hockey. Tyringe Hockey signing a two-year agreement is a signal that it is possible, even for smaller clubs with limited resources, to provide the PolarCap® System to their elite players. An important value of this order is thus that it shows the width of the market for PolarCap® System.
